

Faculty: BSc (Hons) Computer Systems Engineering

NAME: Bishal Yadav

STUDENT NUMBER: 250775341

MODULE CODE: CET138

MODULE TITLE: Full Stack Development

MODULE LEADER: David Grey

SUBMISSION DATE AND TIME: 19th of June, 2026

ASSIGNMENT: 1

Academic Misconduct is an offence under university regulations, and this involves:

- **Plagiarism** – where you use information from another information source (including your previously submitted work) and pass it off as your own. This can be through direct copying, poor paraphrasing and/or absence of citations.
- **Collusion** – where you work too closely, intentionally, or unintentionally, with others to produce work that is similar in nature. This can be through loaning of materials, drafts or through unauthorised use of a fellow student's work.
- **Asking another person to write your assignment** – where you ask another individual or company to complete your work for you, be that paid or unpaid, and submit it as if it were your own.
- **Unauthorised use of artificial intelligence** – where you use artificial intelligence tools to generate your assignment instead of completing it yourself and/or where you have not been given permission to use artificial intelligence tools by your module leader. Please complete the following declaration around you use of artificial intelligence tools in your assignment.

STATEMENT ON USE OF ARTIFICIAL INTELLIGENCE TOOLS:

• I have used artificial intelligence tools to generate an idea for my assignment:	NO
• I have used artificial intelligence tools to write my assignment for me:	NO
• I have used artificial intelligence tools to brainstorm ideas for my assignment:	YES
• I have used artificial intelligence tools to correct my original assignment:	NO

DECLARATION

- I understand that by submitting this piece of work I am declaring it to be my own work and in compliance with the university regulations on Academic Integrity.
- I confirm that I have done this work myself without external support or inappropriate use of resources.
- I understand that I am only permitted to use artificial intelligence tools in line with guidance provided by my Module Leader, and I have not used artificial intelligence tools outside this remit.
- I confirm that this piece of work has not been submitted for any other assignment at this or another institution prior to this point in time.
- I can confirm that all sources of information, including quotations, have been acknowledged by citing the source in the text, along with producing a full list of the sources used at the end of the assignment.
- I understand that academic misconduct is an offence and can result in formal disciplinary proceedings.
- I understand that by submitting this assignment, I declare myself fit to be able to complete the assignment and I accept the outcome of the assessment as valid and appropriate.

What is HTML?

HTML (HyperText Markup Language) is the standard language used to create and structure web pages. It tells a web browser how to display content such as text, images, links, forms, tables, and buttons. **Common HTML Tags**

Tag	Purpose
<html>	Root element of an HTML document. Everything is inside this tag.
<head>	Contains metadata such as title, CSS links, scripts, and SEO information. Not visible on the page.
<title>	Sets the webpage title shown in the browser tab.
<body>	Contains all visible content displayed on the webpage.
<h1> to <h6>	Heading tags. <h1> is the largest, <h6> is the smallest.
<p>	Defines a paragraph of text.
<a>	Creates a hyperlink to another page or website.
	Displays an image.
<button>	Creates a clickable button.
<form>	Creates a form to collect user input.
<input>	Creates an input field such as text, password, email, etc.
<label>	Defines a label for an input field.
<textarea>	Multi-line text input field.
<select>	Creates a dropdown list.
<option>	Defines an option inside a dropdown.
<div>	Generic container used to group elements.
	Inline container for styling small portions of text.
	Unordered (bulleted) list.
	Ordered (numbered) list.
	List item.

<table>	Creates a table.
<tr>	Table row.
<th>	Table header cell.
<td>	Table data cell.
 	Inserts a line break.
<hr>	Creates a horizontal line.
